## DETAILED ACTION

### *Election/Restrictions*

1. Claims 1 - 28, 31, 33 - 36, 38 - 43, 45 - 48 are directed to an allowable product. Pursuant to the procedures set forth in MPEP § 821.04(B), claim 32, directed to the process of making or using an allowable product, previously withdrawn from consideration as a result of a restriction requirement, is hereby rejoined and fully examined for patentability under 37 CFR 1.104.

Because all claims previously withdrawn from consideration under 37 CFR 1.142 have been rejoined, **the restriction requirement as set forth in the Office action mailed on May 8, 2009 is hereby withdrawn.** In view of the withdrawal of the restriction requirement as to the rejoined inventions, applicant(s) are advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once the restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

### *Drawings*

2. The drawings were received on March 19, 2004. These drawings are accepted by the Examiner.

## REASONS FOR ALLOWANCE

3. The following is an examiner's statement of reasons for allowance:

The closest prior art of record fails to teach or suggest the recited printing label roll. The independent claims identify the uniquely distinct features of a substrate that include a web of thermal printing paper having a front surface and a back surface, wherein the back surface a plurality of adhesive patches aligned in a single column align a running axis of the web in a minor area of the back surface and the front surface including a release strip extending along the running axis overlapping the adhesive patches when in a rolled configuration. The closest prior art of record, Smith (USPN 5,578,352) in view of Slagsvol (USPN 4,884,826) and Lane (USPN 2,170,147), disclose different printing label rolls, which either singularly or in combination, fail to anticipate or render obvious the above limitations.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Patricia L. Nordmeyer whose telephone number is (571)272-1496. The examiner can normally be reached on Mon.-Fri. from 10:00-6:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, David R. Sample can be reached on (571) 272-1376. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
